

# INSTRUCTIONS FOR LONG SKIRT

Hey everybody! This tutorial is for a skirt out of t-shirts. You can make it any length you'd like. We made a long skirt and we used two t-shirts for it. You can choose any patterns or colors you'd like, you can add more panels if you'd like, and we hope you enjoy!

## CUT T-SHIRTS

1. You're going to get two t-shirts and cut a straight line right below the armpits. Draw a line from one armpit to another and cut all the way.
2. Now you will sew the two pieces together. Sew the two t-shirts together on the edges that you cut. Leave the bottom hemmed part of the t-shirt with the casing intact.
3. You have to decide which color t-shirt you want on the top of the skirt.
4. On one of the hems, we will insert a drawstring so the skirt fits your waist.
5. The other hem will be the bottom hem of the skirt, without us having to sew it.
6. Face the two fronts to each other, basically inserting one circular t-shirt rectangle inside the other.

## PIN, MARK & SEW

7. You will mark a half an inch, or 1.3 cm, away from the edge.
8. Sew all around the top. This will end up being in the middle of the skirt.

## CUT A STRING

9. Use the leftovers of the t-shirts to cut a cord.
10. Cut a half an inch, or 1.3 cm, wide cord. Stretch it.

## CUT SMALL OPENING

11. Make a small opening on one layer of the pre-existing hem of one of the t-shirts so you can send the cord through.

## INSERT STRING THROUGH CASING

12. Trim the cord a little if needed, attach a safety pin to the end of the cord, and pull it through the pre-existing hem.

13. That's the skirt!
